

MicroAdjuster Precision Gap Control System

Accurately and precisely control gaps between nipped rolls. Adjustments can be made while under load.

Three sizes to choose from:

- David Series for loads up to 1,500 lb. per pair.
- Goliath Series for loads up to 3,000 lb. per pair.
- Atlas Series for loads up to 40,000 lb. per pair.

Standard Features Include:

- Precision screw movement.
- Ground wedges.
- Proprietary interface.
- Compact design.

Custom Options Include:

- Super-precision series (0.00002-in. adjustment).
- Servo controls (open and closed loop).
